

What is iMindQ?

iMindQ™ is a premier tool that Inspires creativity, stimulates thinking and brainstorming, provokes innovation, enables visualizing of ideas and mind mapping, initiates project planning, conceptualization and modeling of processes.

This mind mapping solution lets you encourage your originality and accumulate innovative ideas, easily sharing them with others in a visually stimulating and understandable format. Inspire, innovate and continually improve in every aspect of your life, no matter whether you are an individual, professional, student or educator.

Think

Working on a **smooth and flexible user interface** will stimulate your creativity and shorten the time needed for generating unique ideas. Inspire yourself and enhance the creativity in everything you construct, by getting more from your brainstorming sessions and idea gathering. Capture all important information in a **simple, easy-to-use, cross-platform** friendly mind map and improve every aspect of your work by clarifying thinking and saving time, energy and effort.

Invent

The flow of your thoughts creates worthy and valuable never-ending stories and iMindQ helps you make your story streamlined in an intuitive and powerful mind map. Stimulate your visual thinking and motivate your idea creation with the usage of **organic and intuitive mind mapping, various map templates, freestyle layouts and rich forms, shapes and images library**. There are no limits to the platform or language you are using, since iMindQ is a **Multiplatform** (Windows, Mac, iOS) and **Multilanguage** (English, Spanish, French, German and Portuguese) solution.

Visualize

Collect, connect and present data in a visually distinctive and memorable format with the variety of map styles, different colors, borders, relationships and ties. You can easily collect data from the web and structure it in a mind map by utilizing the **web browser functionality**. Record your ideas on the **flexible whiteboard space** in various types of formats, such as **mind maps, concept maps, diagrams, flowcharts** and many other model formats. And with the **automated synchronization** you can get the latest changes and be updated anytime and anyplace, without losing any information.

Present

Boring and uninteresting presentations are no longer an option. Address your audience with **powerful presentations** and uniquely depict the flow of complex information. Create a professional presentation using iMindQ, resulting in greater interactivity and participation. Aside from having your mind maps **saved and exported in several different formats** such as PDF document, XML file, image, Rich Text document, MindManager or XMind files, you can utilize the **powerful import option** and the **advanced Microsoft Office Integration**, providing you with map data from different sources and formats, visualizing them in an understandable layout.

Act

Let the realization of your projects be at a high end quality by utilizing the **task and project management feature**. Set your project deliverables by using **WBS chart**, add and update project tasks through task management panel and track project progress with the help of a clear **Gantt chart view**. And with the **Microsoft SharePoint Integration**, increase your company's collaboration through uploading, viewing and editing mind maps directly from iMindQ™.
